

Supplementary 1.

Representative agarose gel electrophoresis of *TGFBI* rs1800470 and *MTHFR* rs1801133 PCR amplification.

A: *MTHFR* rs1801133 PCR amplification; B: *TGFBI* rs1800470 PCR amplification. M: molecular weight marker (100-bp DNA ladder); C-: negative control; 1 – 20: study samples demonstrating the expected 233-bp and 296-bp amplicon.
